Major Program Timeline

Take the courses from your major plan and map them out on the major program timeline below.

1. Start with the semester you took your first Jour course; include Jour 1001 and any Jour courses already completed or in progress.
2. End with JOUR 4263 the semester you want to graduate.
3. List only the 12 JOUR courses required for the major.
4. Context courses can be taken in any semester.
5. Very few courses are offered in the summer; check the [course overview](#) before listing a course in a summer term.
6. Check the handbook for approved learning abroad courses. If you are going on a program that does not have approved courses, leave that semester blank and indicate "abroad."
7. Professional/skills courses must follow this sequence (check [course overview](#) for more info):

Semester 1	Semester 2	Semester 3
JOUR 3004 JOUR 3201	JOUR 32xx skills	JOUR 4xxx skills JOUR 4263

This sequence can be spread out over more than three semesters, but it cannot be shortened.

Plan the 4xxx skills courses for your final semester(s).
